

The SOCCER GRASS BOX is a collection of state of the art artificial grass products.

Using the SOCCER GRASS BOX as your own marketing tool will result in making your discussion between you and your customer easier.

Inside the box you will find different products, each product is manufactured according to the high standards of today's football on artificial grass.

You will find on each sample all the relevant specification details. All samples are easy removable from the box for your presentation.

We at Condor Grass believe that the SOCCER GRASS BOX will only help you in convincing your customer to build his field of dreams.

Advantages

- High quality – up to 20.000 Lisport cycles
- High quality components and UV stabilization package
- Artificial grass is maintenance friendly
 - No mowing
 - No watering
 - No Line painting
- For intensive use the entire year
- Perfect ball roll & bounce

Environment

Think of all of these factors that go into maintaining a healthy green soccer-pitch:

- Lawns require fertilizers, pesticides and weed killers.
- Healthy, green, well-grassed lawns require regular watering.
- Lawns require regular mowing & maintenance
- It costs money to maintain a healthy green lawn.

Now replacing your soccerpitch with our Condor Grass equivalent addresses each of these following environmental issues:

Pouring chemicals on to natural grass will have a cumulative effect on the environment with the chemicals leaking away into the water systems.

At a time when water is scarce in many places, using water for natural grass is essentially a waste of valuable resources.

CONDOR GRASS

NATURAL GRASS

UTILITY	
Can accommodate sustained use, even under environmental stresses, amounting to 8-12 times the annual use of a natural grass surface.	Requires recovery between events, after rainfall, watering & for maintenance activities. In optimal conditions, it can only accommodate 1/10th (10%) of the activity a synthetic surface can endure.
APPEARANCE	
Always will appear as a well-maintained andgroomed grass-playing surface with minimal effort.	Requires regimented maintenance for best appearance. May discolor or die in unsightly patches.
PERFORMANCE	
Faster playing surface throughout field with consistent, enhanced traction. Balls will react perfectly providing realistic play that athletes always expect & demand.	Inconsistent & sometimes-patchy growths causes unpredictable ball movements & leave those playing vulnerable to injuries from unexpected & inconsistent surfaces.
WARRANTY	
7-year insurable, manufacturer's warranty or 8-year extended warranty is available.	Rarely warranted, except for quality of original installation
